INDEX OF AUTHORS

Andrews
  Icelandic Case marking 145, 148, 150–154, 173, 183–185
Archangeli
  underspecification 285–286
Archangeli and Pulleyblank
  underspecification in Yoruba 295–300

Barss and Lasnik
  precedence and binding 10
Bolinger
  bracketing paradoxes 195
  scope ambiguities 195, 198, 200
Borer
Case and control in Hebrew 569

Chomsky
  Leftness Condition 12, 18

Dowty
  verb categories 155, 160–162

Gueron
  verb-particle constructions 590–599
Gussenhoven
  intonation 75–76

Hale
  nonconfigurationality 540, 574
Hayes
  moraic weight 240–242, 247
Higginbotham
  weak crossover 13
Hoji
  Japanese scrambling 41
  weak crossover 13
Horvath
  directionality of government 2
Hyams
  default settings 35

Itô
  syllabification theory 231, 234, 239, 243, 245

Jackendoff
  semantic representations 400–409, 424
Jaeggli
  directionality of government 2
Jelinek
  NPs as adjuncts 540, 548, 557, 565–567, 571, 574

Kayne
  directionality of canonical (proper) government 2–7, 22–24, 33–35
  double object constructions 614, 622, 625
  verb-particle constructions 591–599
Keenan
  subject behavior 146, 168
Kiparsky
  underspecification 285–286
Kiss, E.
  Hungarian lacks weak crossover 20
Koopman
  Specifier of VP 5
Koopman and Sportiche
  Bijection Principle 12, 18
Kuroda
  Specifier of VP 5

Ladd
  intonation 57
Levi
  adjective interpretation 221

Marchand
  adjectives 198–200, 220–221
May
  Quantifier Raising 12
McCarthy and Prince
  prosodic morphology 233, 235–236, 246–247, 259

Newman
  Yawelmani 232
    reduplication 261, 265, 267, 271, 273

Pesetsky
affixation 197
Pierrehumbert
contrastive tone 49–50
pitch accent 51–55
Pulleyblank
underspecification 285–286

Randall
thematic roles 421–423
Rappaport and Levin
lexical structures 391–392, 421

Safir
weak crossover 12, 18
Saito and Hoji
weak crossover 13
Sigurðsson
Icelandic Case marking 146
Sportiche
strong crossover 37–39
Stowell
directionality of government 2
weak crossover 12–13, 18
Talmy 387–388, 393–394, 420, 424

Vendler
verb categories 155

Wasow
weak crossover 11
Wilkins
prepositional phrases and binding 467, 472

Yip, Maling and Jackendoff
Icelandic Case marking 145, 175, 179, 339

Zaenen, Maling and Thráinsson
Icelandic Case marking 145–154, 174–177, 179–180, 185
Zubizarreta
semantic representations 402

INDEX OF LANGUAGES

Bengali
  intonation 47–94
    compared to Swedish 75, 79
  intonational
    heads 77–81
    nuclei 57–72
    phrases 52–55
  phonological domains in 81–96
  questions and intonation 57–58, 65
  segmental phonology 81–86
  stress 55–57, 63

Danish
  Object Shift 605–607, 609, 621
  double object constructions 615–616

English
  adjunction, principles governing 589
  double object constructions 614–626
  morphology 196–7, 200–202, 219–220, 222
  particle verbs 590–608

German
  government in 40
  may lack weak crossover 20–21

Hindi
  relative clauses 637–684
Hungarian
  lacks canonical government position 23
  lacks weak crossover 20

Icelandic
  case agreement in 330–339
  Case-marked PRO 327–360
  Case marking 145–192
  governed PRO 327–360
  grammatical relations 145–192
  Object Shift 610
  verb raising and government 340–342

Japanese
  scrambling and weak crossover in 41

Lakhota
  lacks weak crossover 21

Mohawk
  clausal arguments and disjoint reference in 541–543
  configurational properties 540
  discontinuous expressions in 555–558
  disjoint reference and nonconfigurationality in 540–550
  extraction domains 551–558
  lacks subject movement to Infl 571–573
  nonconfigurational properties 538–539
  NPs are adjuncts 547–548, 554–555, 558, 564,571
  parasitic gaps in 560–562
  pro cannot refer to S
  subject to Case Filter 570–571
  weak crossover 558–564
  Wh-movement 551–558

Norwegian
  prepositional phrases as binding domains 468–471

Palauan
  extraction in 4–8
  head initial 4
  lacks subject-object extraction asymmetries 7
  lacks weak crossover 13–18
  resumptive pronouns 27–32
  Wh-agreement 30–32
  Wh-movement optional in Palauan 15–16
  word order 2, 4

Swedish
  intonation compared to Bengali 75, 79

Warlpiri

lacks canonical government position 23
lacks weak crossover 21

Yawelmani
direction of association 251–252
epenthesis an epiphenomenon 243–246
foot templates in 252–257, 263, 270–273
long vowels 239–242
phonological rules 240–243, 246, 249, 256
reduplication 261–270
skeletal templates rejected 259, 278–279
syllabic structure 231–232, 234–246
syllabic templates 234–238, 246–250, 263, 265–270
syllabification 235, 246

Yoruba
vowel harmony 296–300

INDEX OF SUBJECTS

accent
  phrase as boundary tone 47
accusative
  subjects 145–148, 180, 192, 328
achievement verbs
  distinguished 158–159
  see also activity verbs
acquisition
  of Mohawk and NPs as adjuncts 574
activity verbs
  distinguished from states 155–158
  in English and Icelandic 155–158
  used as accomplishment verbs 159–160
  see also achievement verbs
actor
  see thematic relations
adjacency
  Projection Principle and 580–583
adjacency requirement
  for Case assignment 578–584
  for Case assignment problematic 579–584, 589
adjective-noun compounds
  ambiguity of scope in compounds 195–196, 208–214
  compositionality of 195–196
  deverbal nominals and 219–220
  qualitative distinguished from relational 215–223
  qualitative in compounds 199, 209, 212, 215
  relational distinguished from qualitative 215–223
  relational in compounds 199, 215
  semantics of 195–196
adjunct prepositional phrases
  binding theory and 463–466
adjunction
  principles governing in English 589
adjuncts
  Mohawk NPs are 547–548, 554–555, 558, 564, 571
  NPs are, in head-marking languages 574
  only source of free word order in head-marking languages 574
agent
  thematic role 399
  see also thematic relations
agrammatism 434–435
alternation (phonology)
  distribution interacting with 293–301
alternation (syntax)
  between subjects and objects 416–420
ambiguities
  of scope and bracketing paradoxes 195–227
antecedent government
  see Canonical Government Configuration
arguments
  understood 402–408
assimilation
  in Bengali 81–86
association
  of tune and text 54–55
  to templates 235, 251–252, 265–270, 275
association principles
  for Icelandic verbs 148–149, 160–170, 181–185
attribute-head
  semantic composition for 208–223

Bijection Principle 12, 18
binding
  A and A′ 25–27
  in Hindi relatives 676–680
binding domains
  for pronouns 455–494
  subject requirement on 459–494
binding theory 456–459
  at LF 504–515
  nonconfigurationality and 540–550
  verb phrase ellipsis and 497–534
bound variables
  c-command and 9–11, 13–15, 18
boundary tones 47, 51–55, 57–81, 93
bracketing paradoxes

scope ambiguities and 195–227

c-command
bound variables and 9–11, 13–15, 18
failure of to account for weak crossover 18
canonical government position
Empty Category Principle and 2
existence of VP and 23
lacking in Hungarian 23
lacking in Warlpiri 23
specifier parameter and 33
case agreement
between floating quantifiers and Icelandic PRO 330–331
between predicates and Icelandic PRO 332–336
Case chains
with quirky PRO 330–332
Case conflict
in missing object constructions 120–126
Case marking
for Icelandic verbs 171–191
quirky in Icelandic 145, 174–181, 190–191
verb agreement and in Icelandic 171–174
Case Filter 577–578, 627
applicable at PF and LF 568–571
Case assignment
adjacency and 578–4
clausal arguments
disjoint reference and in Mohawk 541–543
complex functional category
and binding domains 456, 459–462, 464–465, 469, 474–494
composition
decompositional 208–215, 223–226
semantic for attribute-head 208–223
compositionality
of adjective-noun compounds 196
configurationality
see nonconfigurationality
Connectedness Condition
see Empty Category Principle
connectivity
and Control Agreement Principle 104–128
constraints
structure building and in phonology 290–293, 295, 299–302, 305
Control Agreement Principle 102, 104–128, 139–141
correlatives
see relative clauses, left adjoined
crossover
strong 13, 37–39
weak 1–45
absent from Palauan 13–18
arguments for VP 24
failure of c-command to account for 18
government of variables and 23
in Mohawk 558–564
parasitic gaps and 41–44
proper government and 3, 13
scrambling and 41
CV skeleton 231

dative
in Icelandic 145–153, 171–17
subjects 145–153, 179–180, 192, 328
dative alternation
binding domains and 479–480
declarative intonation
contrasted with question intonation in Bengali 75–77
decompositional composition 208–215, 223–226
default settings
of parameters 35
deletion analysis of sloppy identity 499–500, 510–513
derived verb phrase
analysis of sloppy identity 497–501, 510–513
rule 498–501, 510–513, 533
dialect variation
in sloppy identity 519–528
directionality
distinct from precedence 40
discontinuous expressions
in Mohawk 555–558
disjoint reference
clausal arguments and in Mohawk 541–543
nonconfigurationality and 540–550
distribution
interacting with alternation 293–301
dominant
feature values 287–289, 307–321
double object constructions
object shift and 614–626
downstep
intonational nucleus in Bengali 70–72

ECP
see Empty Category Principle
Empty Category Principle
applied to pronouns acting as variables 25
Empty Category Principle
applies at S-structure 31–32
applies to filled positions 24–32
canonical government configuration and 2
particle movement and 631
pronouns and 23, 24–32
weak crossover and 3
epenthesis
an epiphenomenon in Yawelmani 243–246, 249, 256
underspecification and 318–319
existence of VP 23
extra-templatic segments
see segments, extra-templatic
extraction
in Palauan 4–8
extraction asymmetries
directionality of government and 2–7, 22–24, 33–35
specifier parameter and 2–7, 22–24, 33–35
extraction constraints
see extraction asymmetries
extraction domains
in Mohawk 551–558
extrametrical syllables 259–261, 276

feature values
dominant 287–289, 307–321
marked 287, 309
figure
as thematic role 394–398, 410–420
floating quantifiers
see quantifiers, floating
focus
in Bengali questions 58, 89
nucleus in Bengali 58–65, 89

gapping
particle verbs and 591
Generalized Phrase Structure Grammar
outline of 100–104
passives in 445–446
subject extraction in 104–109
genitive
subjects 145–148, 180, 192, 328
goal
see thematic relations
government
directionality, extraction asymmetries and 2–7, 22–24, 33–35
linear order and in Palauan 8–11, 16–18
of PRO in Icelandic 327–360
proper 1–45
proper head, in Icelandic 343–346
see also Canonical Government Configuration, Empty Category Principle
theory of modified 327
grammatical relations
thematic relations and in RRG 165–166
quirky case and 145–192
ground
as thematic role 394–398, 410–420

head government
see Canonical Government Configuration
head-marking languages 574
Head Parameter
default setting 35
Head Movement
see Verb Raising
heads
intonational in Bengali 77–81

inalienable possession 207–208
interpretive derived VP analysis of sloppy identity 497–501, 517, 528
intonation
in Bengali 47–94
intonational nuclei
in Bengali 57–72
intonational phrase 52–53

Lexical Functional Grammar (LFG) 145, 148–154, 171, 173–174, 179, 190
binding in 491–494
passives in 445–446
LFG
see Lexical Functional Grammar
linear order
government and in Palauan 8–11, 16–18
linking rules
advantages of in phonology 300
in Sound Pattern of English 294–295, 298
linking
in syntax *see* association principles

long vowels
see vowels, long

macroroles
see thematic relations, association principles for in RRG maximization
principle of 235–237, 252–254, 266, 272, 279–280
versus satisfaction in mapping to templates 252–254, 266, 272, 276–277, 279–280
metarules 105–106, 114
moraification
rule ordering and 240–242
morphology
stratal theories of and bracketing paradoxes 195

narrow scope
tests for 198, 225
neuropsychological evidence
for grammatical theories 431
nominalizations
see nominals
nominals
deverbal and adjectives 219–220
nominative agreement
with PRO in Icelandic 336–339
nonconfigurationality
binding theory and 540–550
disjoint reference and 540–550
noun phrases
as possible subjectless binding domains 486–491
nuclei
intonational in Bengali 57–72

Object Shift
particle constructions and 602–614, 627
objects
alternation with subjects 416–420
missing
case conflict and 120–126
connectivity and 109–120, 128–130
distinct from extracted subjects 130, 134–135
particle verbs and in English 590–608
position 577–632
obligatory
and optionmal positions in templates 252–254
Obligatory Contour Principle
Bengali tone and 48, 72–75, 93
ordering
of phonological rules 240

parameters
default settings of 35
parameters
see specifier parameter...
parasitic gaps
in Mohawk 560–562
weak crossover and 41–44, 560–562
particle verbs
gapping and 591
in English 590–608
Verb Raising and 599–607
passive
impersonal in Icelandic 185–191
in GPSG 446–447
in LFG 445–446
lexical in Icelandic 150–151
verbal and adjectival 432–433, 444–447
patient
thematic role 401
see also thematic relations
phonetic rules
in Bengali 93–94
phonological domains
in Bengali 81–96
phonological phrase 53
phonological rules
in Yawelmani 240–243, 246, 249, 256
phrase accent
as boundary tone 47
pitch accent 51–55, 93
plurals
semantics for 663–665
possession
inalienable 207–208
precedence
distinct from directionality 40
predicate agreement
with Icelandic PRO 332–336
prepositional phrases
as subjectless binding domains 461–473
not always binding domains 474–482
pro
cannot refer to S in Mohawk 549
PRO
case-marked in Icelandic 327–360

governed in Icelandic 327–360
with quirky case 328–329
Projection Principle
and adjacency 580–583
pronouns
binding domains for 455–494
Empty Category Principle and 23, 24–32
proper head government
condition 343, 354, 360
distinct from case-marking 346, 354
prosodic morphology hypothesis 231, 279–280
prosodic templates
syllabification and 231–281
pseudopassives
binding domains and 480

Quantifier Raising
analyses of 12
quantifiers
floating and quirky PRO 330–331
question intonation
contrasted with declarative intonation in Bengali 75–77 questions
Bengali
intonation and 57–58, 65
stress and 57–58
